AMERICAN HONDA MOTOR CO. INC.

4077

Automobiles | Powersports | Power Equipment | Marine | Motocompacto | HondaJet

OUR EV FUTURE

Based on our global commitment to carb and create strategic partnerships to achieve the annual EV sales goal of 2 million units globally by 2030.

2025

EV Hub

Honda is retooling three auto and powertrain plants to produce EVs

Honda and LGES are building a joint venture EV battery plant in Ohio

Honda EVs

Developed by Honda globally
Produced by Honda in North America

2030

40% of Global Sales = EVs

Including North America

2024

Honda Prologue and Acura ZDX

All-electric SUVs, co-developed by Honda & GM
Production in North America

Fuel Cell Electric Vehicle

Developed by Honda globally
Global production at the Performance Manufacturing Center

2026

Sony Honda Mobility

Co-developed and sold by Sony Honda Mobility Inc.
Produced by Honda (location TBA)

2040

100% EV Sales

Additional updates to this timeline will be made as plans are further developed.

- 1 Introduction of attractive EVs only Honda can offer
- 2 Establishment of a comprehensive EV value chain with a central focus on batteries
- 3 Advancement of EV production technologies and facilities

Establishment of a comprehensive EV value chain with a central focus on batteries

1st half of the 2020s

Procurement from partners

Honda's development scope to date

From 2025

JV with battery manufacturer

LG Energy Solution **HONDA**

From 2028

Vertically-integrated EV value chain

POSCO FUTURE M Asahi KASEI GS YUASA **HONDA**

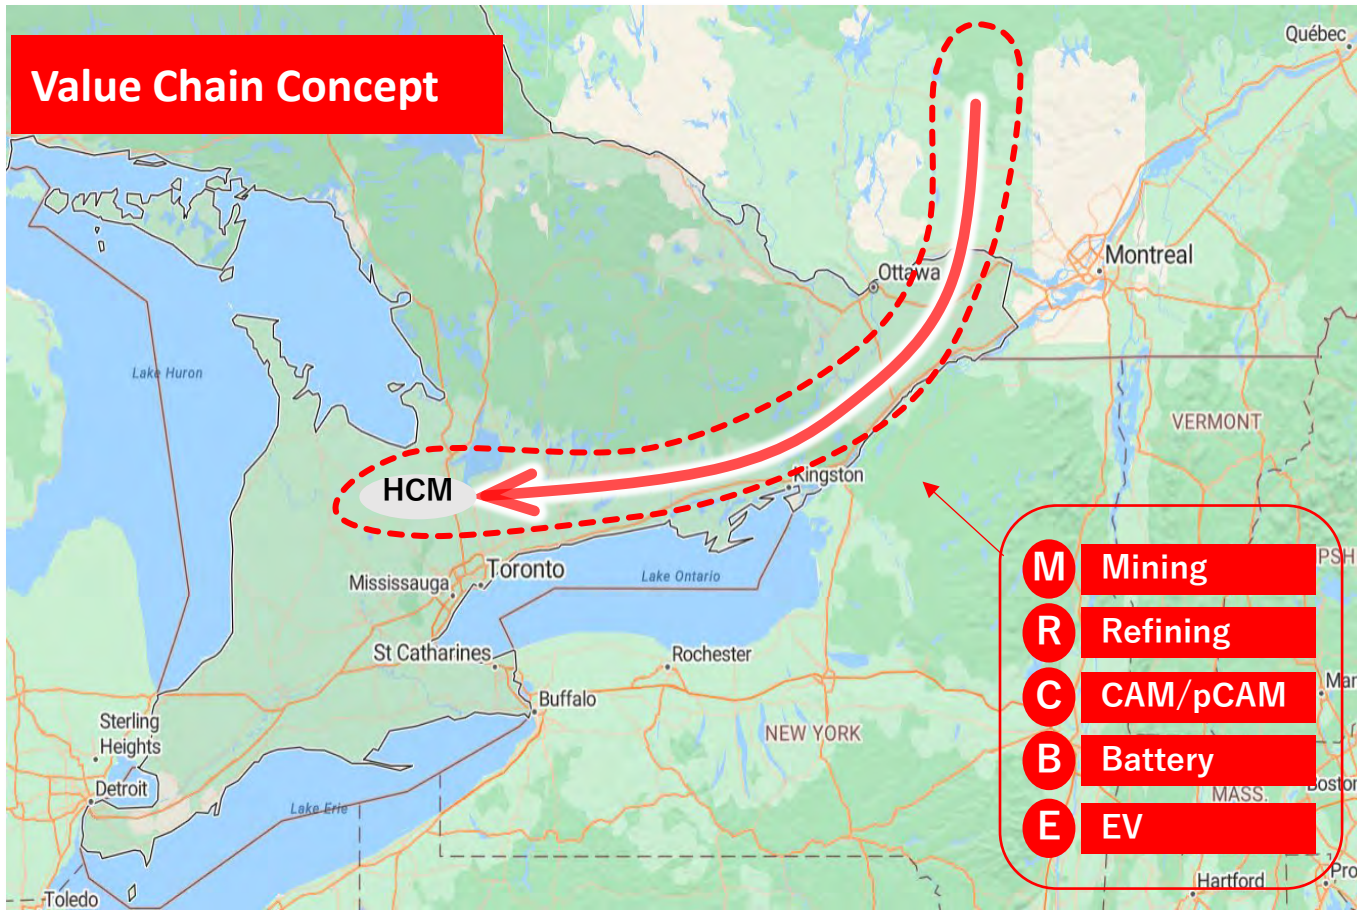

Secure sufficient production volume and competitive advantages by combining external procurement and in-house production

(Procurement of enough batteries for 2M EV production in 2030/Reduce procurement cost by 20%)

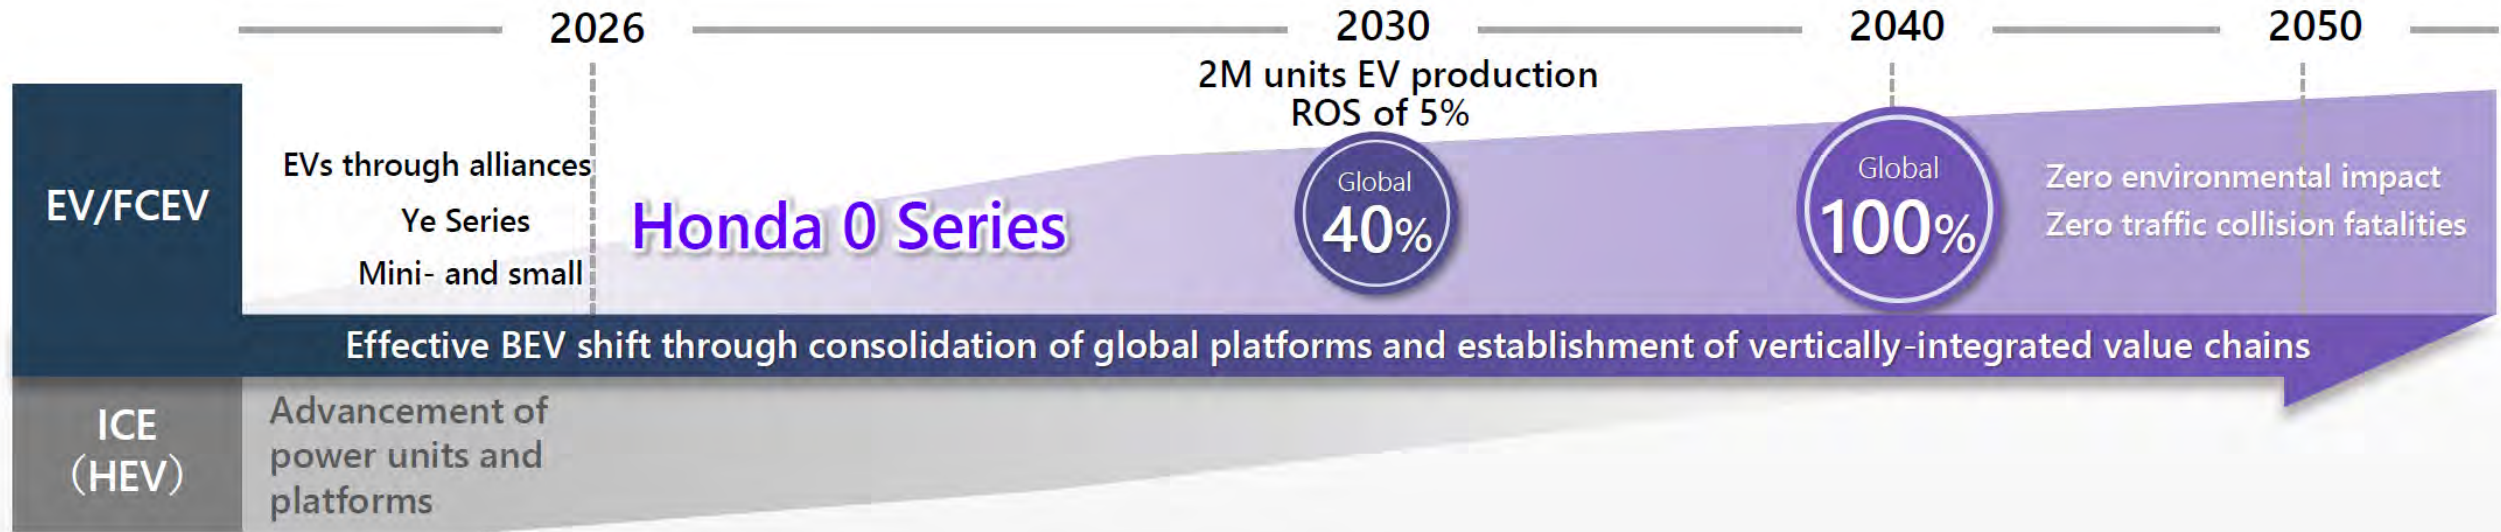

April 25, 2024: Honda announced the largest investment in Canadian automotive history

- EV plant to begin production in 2028, with annual capacity of 240,000 EVs
- Battery plant with an annual capacity of 36 gigawatt-hours
- Cathode material plant and precursor facility for mineral refinement
- Separator plant, an important battery component

- 1 Introduction of attractive EVs only Honda can offer
- 2 Establishment of a comprehensive EV value chain with a central focus on batteries
- 3 Advancement of EV production technologies and facilities
